SafeStep®

DUAL BLEND® ICE MELTER 4300

Made with a high-quality blend of sodium chloride, magnesium chloride and a corrosion inhibitor, Safe Step® Dual Blend® 4300 and Dual Blend® Blue 4300 deicers are formulated to deliver enhanced ice-melting action that is gentler on concrete.

KEY FEATURES:

Melts ice down to -7°F|-21°C

Fast and effective ice melting action

Blended with magnesium chloride for enhanced ice melting* and made with a unique screening process to create optimum-sized crystals for effective deicing performance.

Available in easy-to-see blue crystals

Choose Dual Blend Blue 4300 deicer for better visibility and a more uniform application when spreading.

Powered with corrosion inhibitors

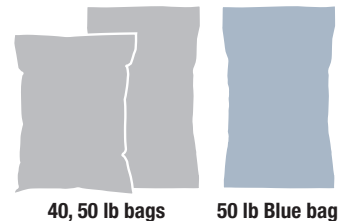

Formulated with a proprietary corrosion inhibitor to be gentler on concrete, our product is the ideal choice to help minimize surface damage.*

*Compared with conventional ice melters, when used as directed.

Active Ingredients: Sodium Chloride, Magnesium Chloride Hexahydrate, Corrosion Inhibitor, Blue Dye (Dual Blend Blue 4300)
